Pyradia

For more than 40 years Pyradia has worked in partnership with the most innovative corporations developing and manufacturing custom engineered solutions for their production needs. From a fully automated heat treating line for the landing gear of the Airbus 380 to complete web converting lines to manufacture one of the major components used in all smart phones, Pyradia is fully equipped to fulfil your requirements with its highly experienced engineering team and 41,000 square feet facility.

WEB CONVERTING INDUSTRIAL OVENS BELFAB DUST COLLECTORS

All the equipment Pyradia builds is specially designed to provide its clients with a **reliable, flexible process**. The company's products are entirely designed, assembled and tested in its factory.

**OUR APPROACH IS AS FLEXIBLE
AS THE EQUIPMENT WE DESIGN.**

**YOU DEFINE YOUR PROCESS,
PRIORITIES AND LIMITATIONS.
WE DELIVER THE TECHNOLOGY
TO ACHIEVE YOUR GOALS.**

Our Belfab division manufactures a complete range of dust collecting systems and downdraft tables with ranging capacities from 1,000 to 20,000 CFM. Belfab's unique modular filter technology lets you increase the filtration surface cost effectively, with the introduction of additional filter modules over time, in line with the growth of your production.

OUR SERVICES

PROJECT QUALIFICATION AND OPTIMIZATION

Manufacturing standards and regulations might sometime sound complicated but they are essential as they help raising levels of product quality, safety, reliability and consistency.

At Belfab our products managers can help you understand the requirements of your industry and identify the right product for your process environment.

Belfab offers a large range of standard dust collectors. For special projects , our engineering team has the capability to design custom solutions.

Don't compromise - Think quality & safety when buying equipments.

NETWORK OF DEALERS

Belfab products are being represented and sold accross Canada and the United States by experts in woodworking machinery.

If you are looking for a representative in your area, please contact our Belfab team who will advise you.

PARTS & SERVICE CALLS

When delivering your project our engineers will recommend a list of spare parts for your equipment.

For faults, advice, repair, replacement or service calls, please contact our parts & services department.

Parts are also available through your local dealer.
